ACROPOLIS®

Acropolis Company is a leading Ukrainian manufacturer of fishing and outdoor accessories. Working since 1996, we have created a series of products, the quality and design of which have won many clients` respect in Ukraine and abroad. It is a real pleasure for us to see how over the years our equipment skillfully serves and becomes a part of their users` lives.

Lots of Acropolis products are the unique developments of our design department. They are functional, always oriented to the user`s needs, and look trendy. The company works directly with its customers feedbacks, taking into accounts their wishes and paying attention to the details that define truly professional equipment.

The company is constantly developing. High standards of the production process made it possible to obtain an ISO 9001:2015 certificate.

Acropolis takes an active social position, e.g. supports local charity festivals and competitions. In 2023 it became an official sponsor for the National Team of Ukraine at the World Championships in Spinning Fishing and Carp Fishing.

SmartPack small accessories bag for carp & feeder fishing

OKR-2 27×20×10 (cm)

water-repellent material

a removable rigid insert that attaches to the inside of the bag using fabric fasteners

removable modular partitions

NEW

OKR-2 is a compact yet highly functional fishing tackle organizer designed for storing accessories, rigs, tools and small tackle items. The main compartment features three removable dividers, allowing anglers to customize the internal layout according to their needs. A standout feature of the organizer is the removable rigid storage platform, which attaches inside the bag using hook-and-loop fasteners.

Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

SmartPack medium accessories bag for carp & feeder fishing

OKR-3 37×27×10 (cm)

water-repellent material

two zipped pockets — one made of transparent film, the other of mesh

removable rigid platform

the OR-3p organiser fits easily

NEW

The bag combines compact dimensions with impressive internal capacity, allowing anglers to organize rigs, feeders, tools and other tackle used during a fishing session. The main compartment features three removable dividers, enabling anglers to customize the internal layout depending on their equipment setup. This flexible configuration makes the organizer suitable for storing both small and larger accessories.

Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

SMARTPACK small clear lead bag

OR-2p 17×8×8 (cm)

a transparent PVC film lid that allows you to quickly see the contents without opening it

SMARTPACK medium clear lead bag

OR-3p 23×8×8 (cm)

reinforced military-style hardware in Coyote color

NEW

A compact organiser, specially designed for storing fishing weights and small accessories. The central compartment features two removable dividers, allowing you to create separate sections for different types of weights.

Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, D300 polyester, PVC film, mesh.

A compact organiser, specially designed for storing fishing weights and small accessories. The organiser can be used on its own or as part of the SmartPack modular system; in particular, it fits easily inside the OP-5p organiser or the OKR-3 bag.

Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

BACKPACKS AND BAGS

SmartPack Small Clear Accessories Bag

OR-4p 27×20×10 (cm)

NEW

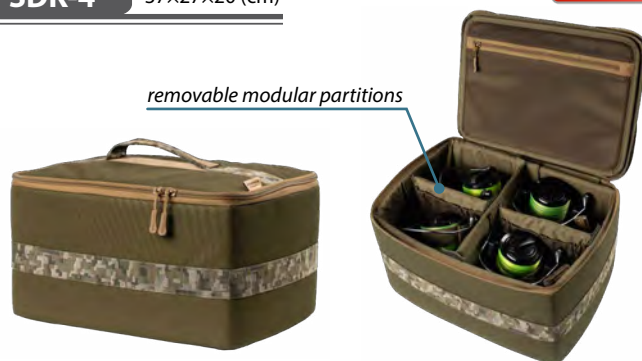

Compact organizer for fishing accessories, designed for the most convenient storage of small gear. The central compartment is equipped with three removable dividers. The organizer has a transparent PVC lid that allows you to quickly determine the contents without opening the bag.
Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

SmartPack Medium 4 Reels Bag

SDK-4 37×27×20 (cm)

NEW

The model is designed for four reels. The interior of the bag has removable modular dividers that allow you to split the main compartment into four sections. The dividers are equipped with additional pockets made of tactical mesh for storing small accessories, spare spools, or tools.
Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

SmartPack medium carp & feeder carry bag

RSK-3 62×39×34 (cm)

NEW

super durable material D1000 — a highly abrasion-resistant polyester that ensures long-lasting use

at the central branch, it is possible to submit OKR-3 and OR-5p, or combinations of SDK-4 with OKR-3 or SDK-4 with OR-5p

large Tackle Box brand boxes from well-known carp brands fit into the front pocket of the bag

three side pockets allow you to compactly store other bags and organizers from the SmartPack series

a rubberized bottom that protects the bag from moisture, dirt, and damage during use on the shore

water-repellent material

The bag's design features a large central compartment and three spacious side pockets, allowing for compact placement of organizers and accessories from this series. All elements of the SmartPack system easily fit into one another, creating a universal gear transport system. This system allows for a clear storage hierarchy, quick access to the necessary accessories, and space-saving during transportation. The bag is made from ultra-durable D1000 polyester, which is used in tactical gear and provides high resistance to abrasion, moisture, and heavy loads. The rubberized bottom protects the bag from dirt and water, while reinforced military-grade Coyote-colored hardware ensures durability even with intensive use.

Materials: D1000 polyester, polyamide webbing, 5 mm polypropylene foam, leather cardboard, D300 polyester, PVC film, mesh.

RSF-3b* Overall dimensions – 41 x 31 x 35 (cm)

top bag – 41 x 31 x 23 (cm)
bottom bag – 41 x 31 x 11.5 (cm)

 3-layer design
polyester D600
polyethylene foam
plastic

The sections with removable walls for 4 feeder or 3 carp reels, a case for a flashlight, spombs, etc.

Side carrying handle

The bottom bag can be used separately

Advantages of the RSF-3 fishing bag:

1. Durable materials — ready for any weather. Made from water-resistant and wear-resistant 600D fabric, complemented with sturdy plastic hardware and impact-resistant buckles. Moisture, dust, or dirt are not an issue.
2. The set consists of two independent bags — upper and lower. They are connected with durable buckles but can also be used separately. This allows you to adapt the setup depending on the duration of your fishing session, fishing style, or personal preferences.
3. Upper bag — for delicate gear. Designed for safe transport of reels, tackle, liquids, and accessories. Features one main compartment and two side pockets.
4. Lower bag — for terminal tackle storage. Ideal for storing hooks, hooklink boxes, and tackle boxes with weights and feeders. A solid base for heavier gear: The rubberized bottom allows placement on wet surfaces without risking the contents. A side carry handle enables convenient standalone transport.

* The RSF-3b model features the same design as the RSF-3, but without additional boxes and the tube. A perfect choice for anglers who already have their own accessories or want a more budget-friendly option.

 thermal protection

 1 pc. cold storage battery

Bag for storage and transport of dips and attractants.

A key feature is two internal modular inserts with compartments, keeping all items securely in place and preventing movement during transport. Supplied with an ice pack. The walls are insulated with 10 mm thick polyethylene foam — twice as thick as in previous models — ensuring improved thermal retention. The lining is made of foil-backed thermal material on a durable polypropylene base, proven for its reliability in thermo-insulated buckets.

TSN-1 20x20x9 (cm) Thermal bait bag

 water-repellent material

 thermal protection

Used for the durable storage of live baits at fishing (worms, maggots etc.). The bag is completed with an ice box and 4 boxes (8,5x4,7 cm).
Material: polyester D600, thermal isolation – foam polyethylene, foiled material.

TSN-2 29x15x11 (cm) Thermal bait bag

 water-repellent material

 thermal protection

Used for the durable storage of live baits at fishing (worms, maggots etc.). The bag is completed with an ice box and 2 boxes (13x13x5 cm).
Material: polyester D600, thermal isolation – foam polyethylene, foiled material.

FBK-10 Internal dimen.- 14x14x10 (cm)

Hard case for a spinning reel (2000-3000)

A hard case for fishing reels 2000, 2500, 3000. Perfectly protects the reel from mechanical influences and scratches. Inside the case, there is a pocket made of three-layer mesh for storing the detachable handle.
Materials: EVA, three-layer mesh, belt sling, plastic carabiner.

FBK-11 Internal dimen.- 14,5x14,5x10,8 (cm)

Hard case for fishing reel 3000-4000 (spinning, feeder, multiplier)

video review

A reliable semi-rigid case for a 3000-4000 spinning and feeder reel (the 4000 must be with a front clutch), as well as for a low-profile multiplier reel with a handle up to 95 mm. Inside the case, there is a pocket made of three-layer mesh for storing the detachable handle.
Materials: EVA, three-layer mesh, belt sling, plastic carabiner.

BACKPACKS AND BAGS

SDK 22x11x8 (cm) Bag for two fishing reels

3-layer design
polyester D600

CHRZ-1 Size: XL, XXL Winter mitten-cover

Winter mitten-cover, for hands thermal protection during winter fishing. Can be used both by right-hander and left hander. Winter fishing rod inserts through the hole in the front part of the mitten. The mitten – cover is supplemented by platform made out of rubber with Velcro, which is worn on the hip for easy removal of the mittens during fishing.

video review

CHRZ-4 Size: XL, XXL Mitten with beaver fur for winter fishing

Universal winter mitten with natural beaver fur for righthanded or lefthanded anglers. Designed to protect your hands from frost. The fishing rod for winter fishing is inserted through a hole in the front. The glove is fixed on Velcro to the textile sling, which comes complete with the main product.

ACCESSORIES

CHRZ-3 M-L, XL-XXL Winter mittens with beaver fur

Winter gloves for a hunter or fisherman. Made of soft, wear-resistant eco-suede. On the inside there is a warm lining made of **natural beaver fur**. The mittens keep your hands warm in cold, damp weather in winter. An elastic band is sewn in at the wrist level. It additionally retains warm air in the mitten and prevents cold air from entering. In order not to lose the mittens from the pair, they can be connected to each other with a button - a fastener, the elements of which are sewn on each 'mitten'.
Material: eco-suede, beaver fur.

CHRZ-2 L, XL, XXL Winter fleece gloves

Winter gloves are sewn from double fleece. They have a sewn-in elastic band for fixing.
Material: 100% polyester.

CHRZ-5 L, XL, XXL Bilateral signal men's gloves

Double-sided winter gloves in orange / olive color.
Material: 100% polyester.

SDO-3 21x32x29 (cm), size: 39-43 Bag for shoes

SDO-4 24x33x29 (cm), size: 44-47

Bag is used for the transportation of boots. It has a vent. For additional convenience of the hunter or if you are not alone on the hunt, a small pocket for an ID is sewn onto the bag. There is a transport handle at the top. Made of reliable water-repellent polyester. The bottom of the product has an insert made of polyethylene foam and a polyester lining.
Material: polyester D600.

ACCESSORIES

SDO-5 24x33x43 (cm), size: 39-47 Boots bag

a bag for transporting and storing boots and ankle boots. Made of reliable water-repellent polyester. The bottom of the product has an insert made of polyethylene foam and a polyester lining. A strong carrying handle and a ventilation insert are sewn on top. So, the boots are ventilated, not steamed, and get dry, while you go home from hunting, fishing or hiking.
Material: polyester D600.

MCH-1 Sizes: 41-46 Rubber Boots

Men's rubber boots protect against moisture in changing weather. The self-cleaning sole does not slip and holds well on wet surfaces. There is a heat-insulating insole (4 mm) made of hypoallergenic polyester. The boot's upper part is made of durable water-repellent Cordura fabric. A great bonus is a bag for storing and transporting boots.
Materials: boots - PVC, Cordura; bag - polyether D600.

SDO-7 24x33x43cm, Size: 39-47 Boot Bag with Carrying Handle & Shoulder straps

Equipped with ventilation eyelets to ensure proper air circulation. Designed to keep footwear protected and maintain cleanliness inside a vehicle. Features shoulder straps on the back for carrying the bag as a backpack. Front-loading design allows easy placement of boots inside.
Material: 600D polyester.

ACCESSORIES

NEW

VCHV-1 24x16 (cm) Air-Release Waterproof Pouch

The modern waterproof case with an instant air removal button that allows you to secure your phone as tightly as possible inside the case. The built-in pump quickly removes excess air, allowing the case to fit snugly to your smartphone, ensuring smooth and accurate touchscreen operation.

VCHP-1 29x16 (cm) Floating Waterproof Phone Case

NEW

VCHB-1 13x25 (cm) Waterproof Smartphone Pouch

NEW

The floating waterproof pouch is an ideal solution for relaxing near the water, when it is important to keep your smartphone safe and always have it at hand. Its main advantage is that the case floats in water. Even if the phone accidentally falls, it does not sink, but remains on the surface, which minimizes the risk of losing the device.

The waterproof pouch ensures the safety of the device and comfort of use even in wet conditions. The case has double protection against leakage and meets the IP8X standard, providing high water resistance and pressure resistance.

SHDT-1 total length — 150 cm when folded — from 38 to 74 cm Adjustable strap for smartphone with holder

T-shaped insert that fits securely in the case

NEW

Nylon phone lanyard. A useful accessory for everyday use. This is a solution for those who want to have their smartphone at hand and not worry that it will accidentally fall or get lost. The lanyard is made of dense polyester-nylon weave of high quality. A T-shaped insert with a thickness of 0.5 mm is used, which is firmly fixed in the case and does not fall off even when pushed or actively moved. The lanyard easily copes with daily pulling and swinging.

Mushroom picking

MUSHROOM PICKING

RNG-1 57x34x47 (cm) 30 l

Backpack with 3 baskets for mushroom pickers

Covering material - polyester D600

The backpack has ergonomic back with 3 pillows - tabs for back comfort. Two wide shoulder straps that can be pulled together at chest level. The 3 eyelets are sewn on top to allow air to pass into the middle of the product. On all sides - additional pockets (one pocket is lined with thermal insulation material, the others - in the classic version); The complete set of Acropolis RNG-1 includes 3 baskets. The 1 large wicker basket (30 liters). One side of the basket has a straight shape, for the comfort of carrying the basket on your back in a backpack. In addition, the basket has two strong handles made of the textile sling. The 2 basket (13 liters) is also made of wicker, similar in design, but smaller in size and has wooden handles. And the 3 basket (13 liters) is a compact folding basket made of wicker and strong mesh. When it is folded, you carry it in the upper part of the backpack.
Material: Oxford D600, mesh, vine.

RNG-1/1 52x35x26 (cm) 30 l

Foraging backpack with a basket for a mushroom picker

Covering material - Water-repellent polyester D600

Mushroom foraging rucksack with a wicker basket. On all sides there are pockets (one thermal pocket, the other - in the classic version). The basket has two strong handles made of textile sling.
Material: water-repellent polyester D600, polypropylene foam, mesh, vine.

MUSHROOM PICKING

RNG-2 46x29x37 (cm) 30l Backpack with a basket for mushrooms

 Covering material -
Water-repellent polyester D600

video review

Backpack with a basket for picking mushrooms have ergonomic shoulder straps are additionally stitched with textile straps. The mesh bottom of the backpack is ventilated. Three eyelets are sewn into the upper part. Thanks to the good access of air inside, the mushrooms are better preserved. The central compartment contains a large wicker basket made of vines. The basket can be removed from the backpack and carried separately using the textile handles.
Material: water-repellent D600 polyester, mesh, vine.

RNG-3 59x26x42 (cm) 40l Backpack with 2 baskets for mushrooms

 Covering material -
Water-repellent polyester D600

Backpack for mushroom pickers, complete with two baskets for picking mushrooms. Ergonomic back and shoulder straps with a cross strap on the chest unload the back, making the process of "quiet hunting" comfortable. There is a large pocket in the front for snacks (sandwiches, thermos, water bottles) or mushroom accessories (knives, boards, boxes, etc.). This compartment is closed with textile fasteners - Velcro. The central part of the backpack opens with a lock with two sliders.
Material: water-repellent polyester D600, polypropylene foam, plastic.

The comfortable straight cut and high-quality denim with added elastic fibres stretch well and do not restrict movement when relaxing outdoors. All seams are securely stitched, and the best YKK zip will last for years!

The jeans feature decorative elements:

- leather patches with unique deer and fish embossing,
- pockets decorated with embroidery on the outside,
- original themed boar and fish design on the inside of the pocket.

Materials: denim (98% cotton, 2% spandex), YKK zipper, genuine leather.
