Hunting

coffers, cases, bags, backpacks, accessories for hunting, mushroom picking, clothes and shoes

Hunting is not only the most ancient mankind occupation, but one of the strongest ancient instincts for real men. Therefore, hunting weapons and its equipment is the subject of the most vigilant attention and preferences of hunters. During one's long hunting wanderings, each of you take care of the weapons and its equipment protection at any weather.

The «Acropolis» company takes care of this! Having worked on the market for quarter of the century, we have created a range of hunting equipment and accessories, which quality and design gained respect from experienced hunters.

The manufactured goods of «Acropolis» trade mark are unique by their properties and design, as they are works of authorship and do not have prototypes in the world.

Hunting is not only killing game animals, but it is a passion, it is an art ... it is an unachievable magic! Taking this into consideration, our company works tightly with hunters. We gain inspiration from communications with our customers. We very attentively take into account their feedbacks and wishes to understand their opinion on each item.

A special attention is paid to the details and nuances that define really genuine professional equipment.

The company values your attitude to each article, it is a real satisfaction for us to see how our equipment is serving you for many years and then it becomes the vital part of your hunting life.

We hope you like using items of the «Acropolis» company as much as we like manufacturing them for you.

Sincerely,
Andriy Panechko
Co-Founder

CASES

FZ-2 76x24x6 (cm) Case for disassembled shotgun

Case for disassembled shotgun:

- Decorative patches;

- Covers for a buttstock and a barrel.

FZ-3at 78x22,5x4,5 (cm) Case - transformer with interchangeable partitions for smoothbore weapons

FZ-3bt 91,5x26,5x4,5 (cm) Case - transformer with interchangeable partitions for semi-automatic weapons

FZ-3vt 78x31x6 (cm) Case - transformer with interchangeable partitions for smoothbore weapons with two barrels

Case - transformer with interchangeable partitions for smoothbore weapons with two barrels

NEW

- 5-layer design
- Leatherette
- Plywood
- Polyethylene foam
- Foam rubber
- Velour imitation material

Upper material - leatherette (frost-resistant). The lining is velour.

Inside the case there are hard partitions that form compartments for the barrel, butt, cleaning kit, belt and accessories. For your comfort, the partitions are removable and fixed to the frame with textile fasteners. Thus, you can independently adjust the sizes of all sections. For reliable fixation of the weapon elements, the item includes soft pads of various sizes, which can be used to fill the free space of the compartment.

The colour of the lining may vary.

Magnetic fasteners

Carbine for carrying

Universal cover for rifled or smoothbore weapons. Quickly puts on the top of the gun. Silently fastens on the magnetic fasteners. The cover is stretched along the length of the rifle thanks to the rubber cord. The cord tension is regulated by plastic clamps. Protects weapons from scratches, dust, dirt, leaves, branches, etc. Compactly folds into a small pocket-bag, which can be hooked on a carabiner to the backpack.
Material: polyester.

CHDZ-5/130 130 (cm) Cover for weapon

CHDZ-6/120 120 (cm)

Soft fleece case for storing and transporting hunting weapons. Often used when you need quickly change the place on the hunt. Is conveniently tightened on a strong cord with a clamp. Fleece material is durable and practical. It is elastic and soft, protects the weapon from scratches. In addition, it removes moisture well, which simplifies the drying process of the rifle and reduces the likelihood of rust.
The case folds easily to a compact size, takes up little space, and does not interfere.
Material: fleece (230 g/m).

VCHP-1 29x16 (cm) Floating Waterproof Phone Case

NEW

VCHB-1 13x25 (cm) Waterproof Smartphone Pouch

NEW

several levels of protection

The floating waterproof pouch is an ideal solution for relaxing near the water, when it is important to keep your smartphone safe and always have it at hand. Its main advantage is that the case floats in water. Even if the phone accidentally falls, it does not sink, but remains on the surface, which minimizes the risk of losing the device.

The waterproof pouch ensures the safety of the device and comfort of use even in wet conditions. The case has double protection against leakage and meets the IP8X standard, providing high water resistance and pressure resistance.

SHDT-1 total length — 150 cm when folded — from 38 to 74 cm Adjustable strap for smartphone with holder

NEW

video review

T-shaped insert that fits securely in the case

Nylon phone lanyard. A useful accessory for everyday use. This is a solution for those who want to have their smartphone at hand and not worry that it will accidentally fall or get lost. The lanyard is made of dense polyester-nylon weave of high quality. A T-shaped insert with a thickness of 0.5 mm is used, which is firmly fixed in the case and does not fall off even when pushed or actively moved. The lanyard easily copes with daily pulling and swinging.

Backpack with 3 baskets for mushroom pickers

 Covering material -
Water-repellent polyester D600

cooler pocket

eyelets for ventilation

chest fastening

mesh bottom

video review

The backpack has ergonomic back with 3 pillows - tabs for back comfort. Two wide shoulder straps that can be pulled together at chest level. The 3 eyelets are sewn on top to allow air to pass into the middle of the product. On all sides - additional pockets (one pocket is lined with thermal insulation material, the others - in the classic version); The complete set of Acropolis RNG-1 includes 3 baskets. The 1 large wicker basket (30 liters). One side of the basket has a straight shape, for the comfort of carrying the basket on your back in a backpack. In addition, the basket has two strong handles made of the textile sling. The 2 basket (13 liters) is also made of wicker, similar in design, but smaller in size and has wooden handles. And the 3 basket (13 liters) is a compact folding basket made of wicker and strong mesh. When it is folded, you carry it in the upper part of the backpack.
Material: Oxford D600, mesh, vine.

RNG-1/1 52x35x26 (cm) 30 l

Foraging backpack with a basket for a mushroom picker

 Covering material -
Water-repellent polyester D600

eyelets for ventilation

ergonomic backrest

compartment for clothes, personal belongings

mesh bottom

Mushroom foraging rucksack with a wicker basket. On all sides there are pockets (one thermal pocket, the other - in the classic version). The basket has two strong handles made of textile sling.
Material: water-repellent polyester D600, polypropylene foam, mesh, vine.

MUSHROOM PICKING

RNG-2 46x29x37 (cm) 30 l Backpack with a basket for mushrooms

 Covering material -
Water-repellent polyester D600

Backpack with a basket for picking mushrooms have ergonomic shoulder straps are additionally stitched with textile straps. The mesh bottom of the backpack is ventilated. Three eyelets are sewn into the upper part. Thanks to the good access of air inside, the mushrooms are better preserved. The central compartment contains a large wicker basket made of vines. The basket can be removed from the backpack and carried separately using the textile handles.

Material: water-repellent D600 polyester, mesh, vine.

video review

RNG-3 59x26x42 (cm) 40 l Backpack with 2 baskets for mushrooms

 Covering material -
Water-repellent polyester D600

Backpack for mushroom pickers, complete with two baskets for picking mushrooms. Ergonomic back and shoulder straps with a cross strap on the chest unload the back, making the process of "quiet hunting" comfortable. There is a large pocket in the front for snacks (sandwiches, thermos, water bottles) or mushroom accessories (knives, boards, boxes, etc.). This compartment is closed with textile fasteners - Velcro. The central part of the backpack opens with a lock with two sliders.

Material: water-repellent polyester D600, polypropylene foam, plastic.

MUSHROOM PICKING

RNG-8 46x29x37cm), 30 l

Backpack with 2 wicker baskets for mushroom picking

A large woven wicker basket holds its shape well. It is breathable and light in weight. In the central part of the basket, textile straps are stretched and a plywood board is inserted. The smaller basket stays on the board. The soft backness, made of 3-D mesh and foam, does not put pressure on the back. On both sides, there are special fasteners for a folding mushroom picker stick (at the top it is fixed with Velcro straps, and at the bottom - with a textile stand).
Backpack materials: Oxford D600 polyester, polypropylene foam, 3d mesh.

RNG-5 43x35x24 (cm) 27 l

Basket backpack for mushrooms

RNG-5m 30x31x22,5 (cm) 13 l

video review

Backpack for mushroom pickers can serve both as a rucksack on a shoulder, and a big basket for mushrooms. The back is anatomical, thickened, soft. The top cover made of water-repellent material. You have a choice to use the RNG-5 model as a convenient mushroom backpack or as a large basket for mushrooms.
Material: polyester D300, polypropylene foam, vine, brass buttons.

handles-transformers

pocket for cover

ergonomic basket form

Wicker basket for mushrooms, made of vine branches of different thicknesses, which makes it strong and light in weight at the same time. Provides good air access. The main feature of this product is the handles - transformers. They can be used as classic carrying handles and as a shoulder strap. It holds well and does not slip when the basket is empty, and does not rub when it is full. Material: vine, polyester D300.

Balaclava

Olive balaclava made of warm, soft acrylic, which completely covers the head and neck. Size: universal (55-60) Material: 100% acrylic.

CLOTHES

OSHM-16 Men's winter hat

Olive warm hat for men. Winter double knit hat. Retains shape after washing. Polyacrylic is often called "artificial wool". It is quite elastic and durable. It is comfortable to wear on fishing or hunting, walking in the woods for mushrooms, and in everyday life.
Size: universal (55-60).
Material: 100% acrylic.

OSHM-17 Winter Hat

Men's hat for fishermen and hunters. The hat is for the autumn-winter season. The soft elastic material does not slip, retains its shape after washing, removes excess moisture and retains heat. Acrylic has good breathability, does not soar head.
Size: universal (53-60).
Material: 100% acrylic.

OSHM-5 Signal hat for hunters

OSHM-5a

Signal two-sided hat. Ideal for both daily use and hunting. The hat keeps the heat well, it is pleasant to the touch, does not deform during operation and washing, does not burn and not be crumple.
Material: **OSHM-5** - 100% acrylic, **OSHM-5a** - 70% acrylic, 30% wool.

OSHM-5n

NEW

A comfortable and functional reversible cap that allows you to easily change your look depending on the situation.
Material: 100% acrylic.

OSHM-7 Size: L, XL, XXL

Universal fleece hat

Universal fleece two-sided hat. Ideal for both daily use and hunting, when the hunter is clearly visible at a considerable distance, even during the dark times of the day.
Material: 100% polyester.

OBL-5

Balaclava

White balaclava which repels moisture and breathes well.
Size: universal (55-60)
Material: 100% acrylic.

OSHM-18 Size: 55-60

Knit Hat with Visor

Demi-season men's hat. The hat is warm, wears well and retains heat.
Material: 100% acrylic.

OBL-3

Size: 55-60

Balaclava knit hat

2 in 1 - warm demi-season hat, which you can transform into a functional balaclava. Acrylic balaclava completely covers the head and neck. Protects ears and forehead from cold air.
Material: 100% acrylic.

CLOTHES

OSHM-8 L, XL, XXL Fleece winter hat

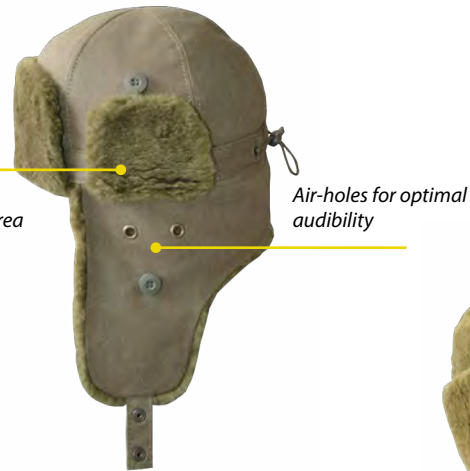

Winter hat made out of fleece is warmed with artificial fur and cotton wool. Hats valves are fastened under chin (and behind) with the help of Velcro. Material: 100% polyester.

OSHM-12 Size: 55-60 Winter hat

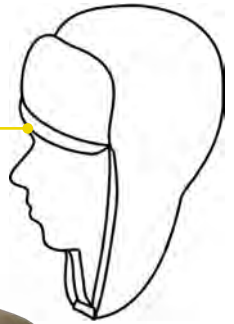

Flaps for additional warming of the ear area

Air-holes for optimal audibility

Forehead warming

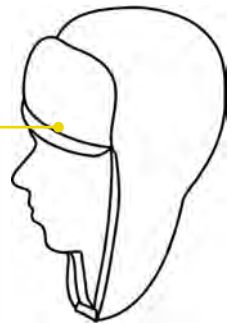

Winter hat made out of fleece is warmed with artificial fur and cotton wool. Hats valves are fastened under chin (and behind) with the help of original snap button. Material: 98% - cotton, 2% - polyester.

OSHM-14 Size: L, XL, XXL Winter hat

Forehead warming

Winter hat made out of natural leather is warmed with beaver fur. Hats valves are fastened under chin (and behind) with the help of original snap button. Material: natural leather, beaver fur.

CLOTHES

OKM-1 Size: 56-59 Hat for hunters

The OKM-1 hat for hunters is made of felt, which is made of fine rabbit and hare fluff. It is a wonderful natural material that is environmentally friendly and safe for human health. A hat made of natural felt holds its shape well, has warming and ventilation properties. This hat was created using traditional technology (more than 60 operations were performed in its manufacture). Thus, it gives a feeling of warmth and comfort and is designed for long-term use.
Material: natural felt, decorative elements made of genuine leather with special eco-tanning

CHRZ-3 M-L, XL-XXL Winter mittens with beaver fur

Winter gloves for a hunter or fisherman. Made of soft, wear-resistant eco-suede. On the inside there is a warm lining made of **natural beaver fur**. The mittens keep your hands warm in cold, damp weather in winter. An elastic band is sewn in at the wrist level. It additionally retains warm air in the mitten and prevents cold air from entering. In order not to lose the mittens from the pair, they can be connected to each other with a button - a fastener, the elements of which are sewn on each 'mitten'.
Material: eco-suede, beaver fur.

CHRZ-2 L, XL, XXL Winter fleece gloves

Winter gloves are sewn from double fleece. They have a sewn-in elastic band for fixing.
Material: 100% polyester.

CHRZ-5 L, XL, XXL Bilateral signal men's gloves

Double-sided winter gloves in orange / olive color.
Material: 100% polyester.
